GOTLAND SHEEP

Gotlands are steadily accumulating a discerning following since their introduction into Britain in 1974. The Gotland is a Northern short-tail sheep, proven in various locations from lowland to uplands.

Small flocks are widely distributed from Cornwall to the Scottish Islands.

THE SOCIETY

Actively promotes the breed, helps members sell breeding stock, and organizes meetings and technical workshops. The Society maintains the breed standard for Gotland sheep. We register pedigree Gotlands in the Flock Book, which is published yearly.

MEMBERSHIP APPLICATION

Please make cheque payable to: **BGSS**
and send to:

Treasurer BGSS

Beca Shakespear Fry
Hen Weirglodd
Llanfor, Bala,
Gwynnedd, LL23 7NR
